Proposed site plan(s) and building plan views
St. Ann's Catholic Church and Co-Applicant, Sue Larson are requesting to vacate an existing 16-foot wide dedicated alleyway in order to move forward with design of a new church.

Included with the petition, the applicant has provided proposed renderings of the new layout of the Catholic Church showing two different scenarios. The first is a building that is mostly rectangular and the second is a building that is L-shaped.

According to Erik Brubaker, the applicant’s representative, the newly acquired area would allow more flexibility to accommodate a better designed layout of the new building than the fragmented area that currently exists because of the existing alleyway.

The current alleyway does contain city utilities; in fact sewer, water and electric are located within the current 16-foot wide strip. Discussions with the city’s respective departments have led to church considering two options:

1. Move the utilities into the existing public rights of way of Lincoln and/or Grant Street; and/or

2. In lieu of city ownership, the Catholic Church would provide a utility easement for those remaining utilities.
On September 7, 2016, the City Engineer, City Planner and City Sewer and Water department heads met with Mike Wade, liaison to the church and Brett Converse, PE on site about moving utilities. While the Church wasn’t prepared at that time to show the city how utilities would be moved, there was discussion about level of service and city department heads requested that any design of utilities be shown to not decrease the level of existing service.

This discussion has led to conditions being proposed that, if approved, all utilities be designed and installed by the applicant. Furthermore, any work involving construction shall also require a development agreement to include, at a minimum the following: construction timing and expected time of completions, performance bonding for any work involving public amenities and possible warranty bonds for any work within right-of-way that includes modification of the existing roadway (including but not limited to boring, paving or reconstruction of streets). The purpose of the conditions is to insure that all public utilities and improvements are reconstructed to, at a minimum, the existing condition or better than before the city vacated any lands.

In addition to the development agreement, staff recommends requiring a public easement dedicated to the city for any remaining public utilities within the boundaries of the property.

APPLICABLE LAWS:

STANDARDS OF REVIEW:

ORDINANCE NO. ______

AN ORDINANCE OF THE CITY OF BONNERS FERRY, A MUNICIPAL CORPORATION OF THE STATE OF IDAHO, REPEALING AND REPLACING BONNERS FERRY CITY CODE TITLE THREE, CHAPTER SEVEN TO UPDATE REGULATIONS AND PERMITTING PROCESS CONCERNING SPECIAL EVENTS WITHIN THE CITY OF BONNERS FERRY; PROVIDING SEVERABILITY; PROVIDING THAT THIS ORDINANCE SHALL BE IN FULL FORCE AND EFFECT FROM AND AFTER ITS PASSAGE, APPROVAL AND PUBLICATION ACCORDING TO LAW.

WHEREAS, the Mayor and City Council have determined that Title Three, Chapter Seven of Bonners Ferry City Code is outdated and in need of clarification and updating, and

WHEREAS, regulations pertaining to special events held within the City of Bonners Ferry are necessary to promote and protect the public health, welfare and safety by requiring a permitting process,

NOW THEREFORE, Be it ordained by the Mayor and the Council of the City of Bonners Ferry, Idaho, as follows:

Section 1: That Bonners Ferry City Code Title Three, Chapter 7 is hereby repealed.

Section 2: That Bonners Ferry City Code Title Three, Chapter 7 is hereby replaced to read as follows:

SPECIAL EVENTS

3-7-1: FINDINGS AND INTENT

(A) The Bonners Ferry City Council finds that special events which take place in the City of Bonners Ferry which are offered to the general public or a substantial segment of the public have the potential to attract large gatherings of people which may cause adverse public health and safety conditions requiring municipal involvement and regulation to ensure adequate protection of public health and safety.

(B) It is the intent of the Bonners Ferry City Council that this chapter be enacted to protect and promote the health, welfare, and safety of citizens and visitors to the City of Bonners Ferry and to regulate special events for the benefit and protection of the public health and safety. Special event applicants, promoters, and sponsors whose special events require the use of extraordinary city resources as a result of anticipated attendance, heightened security concerns, or other logistical situations should pay for those extraordinary resources in order to alleviate the cost to the public taxpayer.
3-7-2: DEFINITIONS

As used in this chapter:

1. APPLICANT, PROMOTER, OR SPONSOR: The person making an application for a permit to plan and operate a special event within the City of Bonners Ferry. As used herein, the applicant, promoter, and sponsor may be used interchangeable and the requirements of this chapter and any administrative regulations shall be enforced against the applicant, promoter, or sponsor.

2. EXTRAORDINARY RESOURCES: Government, public health and safety personnel, equipment, or other resources which would not, in the absence of the special event, be required or expended.

3. INSURANCE: A general liability policy for each permitted event in the amount designated within this chapter written by an insurer authorized by the State of Idaho to write insurance policies and kept continuously in force for the full term of the permit.

4. PERMITTEE: A person having a city issued permit in full force and effect issued hereunder to plan and operate a special event within the City of Bonners Ferry.

5. PERSON: Any person, firm, partnership, association, corporation, company, or organization of any kind.

6. PROJECTED ATTENDEES AND PARTICIPANTS: The estimated number of persons who will attend or participate, are reasonably likely to attend or participate, or are expected to attend or participate in a special event. The number estimate should consider the type and format of the special event, the size and location of the event, any prior events which were similar, including the special event history itself if it is an annual event or part of a series of gatherings or events, and the entertainment, if any, planned.

7. SIDEWALK: Any area or way set aside or open to the general public for purposes of pedestrian traffic, whether or not it is paved.

8. SPECIAL EVENT: A pre-planned gathering, event, or series of related consecutive events of an entertainment, cultural, recreational, educational, political, religious, or sporting nature, or any other nature that:
   a. Is expected to draw fifty (50) or more persons at any session as participants or spectators;
   b. Impacts city streets, sidewalks, parks, common areas, or utilizes city resources;
   c. Requires special City services beyond normal functions including, but not limited to: street closure, increased police or fire protection; or
   d. Intends to broadcast amplified sound or generate unusual noise.

Examples of special events include, by way of illustration and without limitation the following types of events: concerts, dances, assemblages,
processions, parades, circuses, fairs, festivals, block parties, community events, mass participation sports such as running events, bicycle races, or sports tournaments, or other organized activity conducted for a common and collective use.

9. STREET: Any place or way set aside or open to the general public for purposes of vehicular traffic including any berm or shoulder, right of way, or median strip thereof.

3-7-3: SPECIAL EVENT PERMIT REQUIRED:

1. No person shall stage, promote, or conduct any special event, as defined above, in the city without first obtaining a special event permit approved by the Chief of Police, Fire Department Chief, and City Administrator.

2. The requirements for permitting under this chapter shall not apply to the following (unless closure of City streets is requested, in such case, the organizer must complete an application, but fees shall be waived):
   a. Funeral processions,
   b. Spontaneous events for the purpose of expressive activity that occur in response to breaking news or events;
   c. Government sponsored functions;
   d. Venues that are permitted to hold such activities by the property’s zoning or an approved special use permit;
   e. Private functions held on private property; and
   f. School District functions

In determining whether an event is exempt, no consideration shall be given to the content of any constitutionally protected expression connected with the planned activity. No permit shall be required under this chapter, nor any condition imposed on any permit if requiring so would violate the rights protected by the Constitution of the United States or by the Constitution of the State of Idaho.

3-7-4: PERMIT APPLICATION, FEES, INSURANCE AND INDEMNIFICATION:

1. All applicants for a special event permit shall submit an application for a special event permit to the City Clerk no later than thirty (30) days prior to the commencement of the special event.

2. The application for a special event permit shall require and contain information as determined by application approved by the City Council and the Chief of Police.
3. The council shall establish by resolution, a non-refundable fee amount to be submitted with a permit application, the amount of which shall cover the expenses incident to processing the application. This may include an additional fee for applications not submitted in a timely manner as determined by this chapter.

4. All applicants shall submit, with the application, and maintain at least until the conclusion of the event, a comprehensive general liability insurance policy in the amount of one million dollars ($1,000,000), naming the City of Bonners Ferry as a co-insured party. If alcohol is to be served at the event, the insurance policy must also contain an alcohol rider. Applicants must also execute indemnification and hold harmless provisions contained within the application.

5. A cleanup fee, which shall be established by resolution of the City Council shall be required at the time of application, all, a portion of, or none of which shall be returned upon recommendation of the Chief of Police after his inspection of the premises after the event has concluded and the premises have been vacated. Cleanup shall include removal of all signs and advertising materials posted on public property to advertise the event.

6. Upon application to the council and good cause shown, the council may, reduce or waive part or all of the financial requirements for issuance of a permit where the proceeds of the performance or parade are to be donated to a charitable or community organization or for a purpose to benefit the residents, business, or purpose of the City.

3-7-5: ISSUANCE OF PERMIT, EXTRAORDINARY RESOURCES; CONDITIONS OF APPROVAL; GROUNDS FOR DENIAL

1. Upon submission of the application and any supporting documents required by this chapter, the Chief of Police or his designee may approve, approve with conditions, or deny a permit. If additional information is required by the chief of police the applicant shall have five (5) business days to submit all requested information.

2. Special event applicants, promoters, or sponsors whose special events require the use of extraordinary city resources as a result of their anticipated attendance or heightened security concerns shall be required to pay for those resources as determined by the chief of police. Full recovery for extraordinary expenses shall be required no later than sixty (60) days following the conclusion of the event.

3. The Chief of Police shall seek advice of other relevant staff members when the review and coordination of a specific event application is deemed necessary including the Street Department, Clerk's Office, and Fire Department. The applicant may be required to attend a meeting with the relevant parties during the review of the application.

d. The special event will substantially interfere or conflict with any other special event for which a permit has already been granted or activity already scheduled with the provision of public safety or other city services in support of such other previously scheduled event.
e. The special event will:
   i. Substantially interrupt the safe and orderly movement of public transportation or other vehicular and pedestrian traffic in area of the special event;
   ii. Close streets so as to cause unsafe conditions for the public;
   iii. As a result of the expected attendance at the event, the lawful capacity of the facility or area will be exceeded;
   iv. The parking available at the facility will be inadequate to accommodate the expected attendance; or
   v. The event coordinator, applicant, promoter, or sponsor has failed to pay for a previously permitted event.

5. If a permit is denied or if the permit is approved with conditions to which the applicant objects, the chief of police or his designee shall provide the applicant with a written decision to deny or approve the conditions within ten (10) business days. The applicant, within ten (10) business days of the denial may appeal the decision to the City Council for a final review based upon the documents and circumstances presented. The applicant's appeal will be scheduled for consideration by the City Council during a regularly scheduled council meeting within fifteen (15) business days.

3-7-6: REVOCATION OR SUSPENSION OF A PERMIT

The Chief of Police or his designee may summarily suspend or revoke a special event permit issued under this chapter for violation by the applicant of federal, state, or local laws or ordinances during the event, for violations of conditions of the permit, or for making any material false representations in an application for a permit. In deciding whether to suspend or revoke a permit, the Chief of Police or his designee may consult with other members of city staff. In the event of a suspension or revocation, the appeal provisions above shall apply commencing upon the date of the suspension or revocation notice.

Re: Noise Ordinance

Years ago I saw road signs on the North Hill about compression brakes. Did this ordinance get voted out or is it just not being enforced?

I understand safety of truckers is important. However unmuffled compression brakes are very loud even inside my house. With truck traffic on the highway day and night this becomes very disturbing.

Another noise issue is loud music from vehicles. Just because these individuals enjoy that strong beat doesn’t mean everyone does. It can be heard blocks away.

I would appreciate an answer about these two issues. Do we have and ordinance about unmuffled compression brakes? Do we have a general noise ordinance? If not can it be established/enforced?

The purpose of this Contract is to provide fire protection on that portion of the Kootenai Indian Reservation located within the exterior corporate boundaries of the City of Bonners Ferry, Idaho, including all Tribe-owned lands therein held in trust by the United States or subject to a federal restriction on alienation.

PARTIES

This Contract is entered into by the Kootenai Tribe of Idaho (hereinafter "TRIBE") and the City of Bonners Ferry, a municipality organized under the laws of the State of Idaho, (hereinafter "CITY") to carry out provisions of the Self-Governance Compact between the Tribe and the United States Department of the Interior Bureau of Indian Affairs (hereinafter "GOVERNMENT").

FIRE PROTECTION SERVICES AND PROGRAMS TO BE PERFORMED.

A.

SCOPE OF SERVICES

The CITY shall be responsible for providing fire protection to that portion of the Kootenai Indian Reservation covered by this Contract in the same manner and to the same extent as it provides fire protection to other portions of Bonners Ferry, Idaho over which it has fire protection responsibilities.

The TRIBE agrees to maintain the property covered by this Contract in accordance with the Uniform Fire Code (UFC) as adopted by the State of Idaho. In the event that the TRIBE shall maintain or modify existing facilities or construct new facilities in a manner that is in violation of the UFC, the CITY, by written notice, may require the TRIBE to bring the facilities into compliance and, if the TRIBE fails or refuses to do so within sixty (60) days of mailing or personal service of such notice, may terminate all of their fire protection and suppression duties contracted for by this Contract.
B. FIRE HYDRANTS
The TRIBE authorizes the CITY to use the fire hydrants of the TRIBE in its performance of this Contract.

The TRIBE shall pay additionally for all maintenance and replacement costs of the fire hydrants and servicing lines owned by the TRIBE. This work will be done by the CITY. Any work over FOUR HUNDRED DOLLARS ($400.00) will require prior authorization from the TRIBE, unless it is of an emergency nature to preserve the system and/or prevent risk of damage, destruction or injury to persons or property.

C. PROGRESS AND FINAL REPORTS
The CITY shall submit an Annual Narrative report of the number of incidents on the Reservation and the response provided.

GENERAL TERMS AND CONDITIONS

A. SUPPLIES, EQUIPMENT & FACILITIES
At its expense, the CITY shall furnish all supplies, equipment and facilities needed to perform the services, functions and programs contracted to be performed. No supplies equipment or facilities will be furnished by the TRIBE unless otherwise expressly provided herein.

B. CONTRACT TERM
The period of this Contract shall be the period beginning October 1, 2016 and ending September 30, 2017 subject to termination at any time upon thirty (30) days written notice by either party. This Contract may be modified in writing by mutual consent of both parties.
C. CONTRACT AMOUNT

CITY shall receive compensation for services provided under this Contract in the amount of twenty-one thousand five hundred and four United States dollars (US$21,504.00 – $1792/month), which amount shall be prorated from the date of signature of both parties.

D. DISPUTES

Disputes arising under this contract shall be resolved by binding arbitration through the United States Department of the Interior Bureau of Indian Affairs or, at the option of either party, through binding arbitration conducted before a panel of three arbitrators in which each party chooses one arbitrator who shall then choose the third member of the panel.

E. INDEMNIFICATION

To the extent not covered by the Federal Tort Claims Act or any insurance policy possessed by the City, the Tribe agrees to indemnify the City for any claims for damages or injuries brought by third parties for factual situations arising from City’s operation under or intended operation under this Agreement. The Tribe agrees to name City, its elected and appointed officials and employees as additional names insured on all policies providing liability coverage at the Reservation. The Tribe will provide the City a Certificate of Insurance showing the limits of all policies as well as showing the additional named insured provision and agrees to notify the City within ten (10) days in writing should any of the policies be canceled or not renewed.

Nothing in this Agreement shall waive the requirements of or increase the liability limits established by Idaho Code Chapter 9 of Title 6 as it now exists or may hereafter be amended.
F.

PAYMENT IN LIEU OF TAXES

It is understood between the parties that services rendered under this Contract directly or indirectly are in lieu of taxes, and that if real or personal property taxes are ultimately paid by the TRIBE to the CITY for TRIBE-owned property, all or part of the payments described herein will be subject to rebate dollar for dollar. In the event that all categories of taxes for business and property on non-Indian lands shall become applicable to the property and business subject of this Contract, for the period such taxes are paid payments herewith shall be fully refunded and the Contract shall automatically terminate.

G.

VOLUME CONSIDERATION

This Contract is entered into based upon the assumption that the facilities owned and operated by the TRIBE are as they now exist. In the event that, during the term of this Contract, the TRIBE shall modify its facilities to increase its capacity, it is anticipated that there may be a corresponding increase in the demand for the CITY's services as contracted for by this Contract. In such event, the parties agree to renegotiate the compensation to provide for an appropriate increase and the rate paid to the CITY for the services that the CITY hereby agrees to provide.

H.

TRIBAL COOPERATION

The TRIBE will cooperate with the CITY authorities and employees responsible for the performance of the duties herein. The TRIBE will make available to the CITY's officers and employees the necessary records, personnel and access to facilities, which are owned, possessed, maintained or employed by the TRIBE and failure to provide such will relieve the CITY of its duties under this Agreement.

I.
HOLD OVER CLAUSE

In the event that this Contract is not timely renewed, its terms and provisions shall continue and services shall continue to be provided until the TRIBE or the CITY provide notice of its cancellation. It is agreed that the CITY shall be reimbursed at the original Contract rate until such time as a new Contract has been executed, at which time the TRIBE shall retroactively reimburse the CITY at the new rate.

4. In addition to the funding outlined above, all funding will be provided through the County budget process.

5. The administrator of this Agreement shall be the Sheriff, Boundary County, Idaho.

Re: Grant Writing and Administrative Services

The City advertised for Request for Proposals for Administrative Services. This was for assistance in project development, grant writing and grant administration for all public facility, economic development, senior center and imminent threat type projects for a three year period within the City.

We received two proposals. One from Panhandle Area Council and the other was from Stephen Drinkard.

Mike Klaus, Lisa Ailport, and I interviewed both candidates and judged them based on capability, experience, qualifications, approach and schedule, and selection committee interview. Please find attached the summary of our evaluations. We selected Panhandle Area Council.

Please call Mike, Lisa, or me if you have any questions.

Thank you,

Kris

Subject:  Augusta St. Project - Time Extension Change Order

The Augusta Street Sidewalk project was to be substantially complete by August 20th with a final completion date of September 5th, 2016. The contractor, KG&T Septic, has experienced delays for several reasons. The longest delays have apparently been associated with the late arrival of storm drain components earlier in the project. The City is responsible for a two day delay, because of an unanticipated water line move.

The Contractor is asking to extend the substantial completion date to September 30, 2016 and the final completion date to October 10, 2016. The attached letter indicates “asphalt and final clean up by September 30, 2016”. I have talked to KG&T about that being labeled as the substantial completion. I also discussed the final completion date with KG&T and determined that the 10th of October provides a typical period between substantial and final completion in a typical project.

Please call me with any questions you may have.

Thank you,

Mike

Re: Completion Schedule for Augusta Street, Bonners Ferry, Idaho.
(This is just a projected time frame, we are hoping for an earlier completion and will stay aggressively working on this project till completion)

This is to inform you of our scheduled completion days.

**All Excavation to be complete by September 27, 2016**

**All Concrete work to be complete by September 27, 2016**

**All Asphalt and final clean up by September 30, 2016**

We ask for an additional 4 working days once we receive our “punch list” to complete any additional issues.

We thank you very much for giving us the opportunity work for you on this project. We also appreciate your help and working together with you on the issues that we have faced during this project. We feel that the project is going well and look forward to the completion.

Thank you,
Terry Johnson

Subject: Sewer Department - New Aerator Purchase

Last week, I determined with the sewer department that we needed an additional aerator in the primary lagoon. I authorized the sewer department to purchase another aerator for $9,152.16, because we currently have inadequate aeration to properly treat wastewater. We also have one aerator out of service which further increased the need for another unit.

In the warmer summer months it is difficult to maintain high enough dissolved oxygen to provide adequate treatment, especially if the incoming waste stream has a spike that increases the oxygen demand. The City’s treatment process has experienced low dissolved oxygen at unexpected times, indicating that we need to have additional aeration available for unexpected spikes to the system.

Please call me with any questions you may have.

Thank you,

Mike

We are pleased to quote, for acceptance within (30) days of this date, prices and terms on equipment listed below. Shipment of equipment will be completed (3-4) weeks* after receipt of purchase order with mutually acceptable terms and conditions, subject to credit approval, or engineer approved submittals, if required. Aqua-Aerobic Systems' proposal is based upon supply of equipment models as noted. *Notes: Actual shipment is dependent on equipment availability at the time of receipt of order.

Equipment will be furnished by Aqua-Aerobic Systems, Inc. with civil work and installation by the purchaser.

WARNING:
The Aqua-Jet® Aerator has a high velocity, upwardly directed hydraulic flow directly below the unit. In addition, horizontal surface velocities persist for some distance from the unit. These flow patterns may, in some instances, cause damage to basin bottoms or walls, creating leaking potential. In earthen or lined basins, Aqua-Aerobic Systems recommends the use of a concrete pad on the basin bottom directly below the aerator. If concrete is known to be nonresistant to the waste, other materials should be investigated. Riprapping, or similar means of bank protection can protect basin walls. If basin contains toxic wastes, user is advised to obtain engineering advice as to basin design and construction necessary to prevent possible erosion and leakage. Aqua-Aerobic Systems assumes no liability or responsibility for any damage to basin bottoms or walls, or for any injuries or damages resulting therefrom.
