RE: Lease with Kootenai Tribe for Property around Kootenai River Inn

The following lease covers four (4) parcels of property that are located around the Kootenai River Inn property. Two of the parcels are located within the area that is paved as the Inn’s parking lot. The remaining two are located near the new hotel addition and levee. Attached is a map showing the 4 parcels. Parcel #1 represents a platted portion of Mill Street which is paved over and located within the parking lot as it now exists. Parcel #2 is also paved over as part of the existing parking lot. Parcel #3 represents a platted portion of Oak Street which is located immediately adjacent to the new hotel addition and is proposed to be maintained as landscaping by the Tribe. Parcel #4 represents a portion of the levee which the Tribe will also maintain the landscaping on.

The Tribe has asked for a lease agreement with the City to provide both parties with some long term security for the maintenance of the property. The Tribe has agreed to maintain landscaping and perform general upkeep on the parcels as appropriate. The term of the lease is 25 years and can be terminated by either party for failure to perform any promises made in the lease agreement.

The Kootenai Tribal Council approved the attached lease at its May 28th meeting and request that the Council approve the Mayor to sign the lease for the City.

RE: Zoning and Building Violations Policy

Attached is a policy I would suggest implementing to give City staff a set procedure for how to deal with zoning violations. Currently there is no policy or procedure in place so some complaints/issues get lost in the shuffle.

[Signature]
Andrakay Fluid
Zoning and Building Code Violations
Procedure for Abatement

The following is the suggested procedure to be followed in responding to zoning and building code violations:

1. INVESTIGATION: When it comes to the attention of City staff or administration that a potential zoning or building violation exists, they shall refer such information to the City Administrator. If, after consideration of the preliminary information and applicable Planning/Building code, the administrator believes there is reasonable cause to suspect a violation, the administrator shall instruct his/her department to begin an investigation. The assigned staff members shall compile as much evidence as is necessary for a determination to be made regarding the potential violation.

2. INSPECTION: There should be an inspection by staff to determine if the alleged violation exists. If the inspector believes there is no violation, a note shall be made to the file indicating the reason for the decision.

3. CHECKLIST & PHONE CALL: If the property is in violation, staff should create a file on the violation (including a checklist) and verify or determine who the property owner is. Staff should then telephone the property owner to discuss the violation. If the property owner indicates the violation will be abated within a few days, a follow-up inspection should be scheduled.

4. LETTER & EVIDENCE: If the violation is not abated, it may become necessary to attach additional documentation, including memoranda, photographs, etc. to the file. Staff should send a written notice of violation and demand that it be abated; staff should give a reasonable amount of time to abate (3 to 30 days). If the violation constitutes an immediate hazard, the time given should be shorter. Staff should schedule a follow-up inspection at the expiration of the time given.

5. AGREEMENT: If owners say they need more time, staff should offer them an abatement agreement for their signature: the Agreement should not allow more than double the original time, nor offer more than 90 days to abate the violation except under exceptional circumstances.

6. CIVIL LITIGATION: If the violation remains unabated after the expiration of time allowed in the notice, staff should refer the matter to the Legal Department for a civil complaint.

7. CLOSURE: When staff believe the violation has been abated, or after the resolution of litigation, the file should be closed with a memo indicating the resolution of the matter.
