GENERAL PERMIT REQUIREMENTS AND CONDITIONS

A. ANY RIGHT-OF-WAY WORK:

1. Any permittee who shall break or damage any City Water, Sewer, or Electric System or other City property shall forth-with repay the City an amount equal to the damage caused.
2. In certain cases, inspection of portions of the work and/or street repairs will be necessary by the City at the Permittee's expense. The cost for this will be charged on an hourly basis. This cost will be estimated prior to the work and a deposit in the full amount made when the permit is issued. Adjustments for actual time and costs will be made upon completion of the work. Inspection fees where required are in addition to the base permit fee.
3. It is the duty of each permit holder to take proper and adequate precautions to protect the public and public facilities, including but not limited to barricades, fences, signs and lights.
4. The attached indemnification agreement must be signed and executed whereby permittee assumes the defense and payment of all claims and actions brought forth against the City resulting from the work under this permit. The said indemnification may be required to be secured to City satisfaction.
5. All work to be done per the City's policies, standards, and ordinances. In particular the Bonners Ferry Street Standards are applicable.

B. EXCAVATION AND TRENCHING CONDITIONS:

1. Crossing shall be by jacking, boring, or other acceptable method that does not disturb street surfacing. OR; when waived by city, Return work area to original condition or better. All impacted road surface to be repaired and/or replaced with like or better road surface material. Compact backfill on public right-of-way to 95% +. Compaction to be performed for each "lift", and no lift is to exceed 8".
2. Where street surfacing is cut, proper filling, compaction, grading and paving of the street shall be done upon completion of the work and the responsibility for repairing settling shall remain with the permittee for 18 months after the work is completed. Upon observing settling or when repairs are not promptly made the City at its option will effect repairs and bill permittee the cost thereof.

C. ACCESS CONDITIONS:

1. Minimum approach width for a residential home is 24 feet and the minimum approach for commercial is 40 feet.

D. STRUCTURES:
